A summary of receipts and expenditures for the fiscal year ended December 31, 1955, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of December 31, 1955, is indicated in Exhibit F.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from de-

pository banks.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) increased from $890.64 to $6,807.85 during 1955, as shown by the following statement:

	December 31, 1954	December 31, 1955
Total Assets	$20,773.59	$27,149.44
Current Liabilities	19,882.95	20,341.59
Current Surplus	$ 890.64	$ 6,807.85

Uncollected Taxes - Prior Years:

Reference is again made to the uncollected taxes on prior years' (1946 - 1952) tax warrants, consisting for the most part of poll taxes. Little activity took place in these accounts during 1955, as shown herewith:

	Uncollected Taxes December 31, 1954	Collected in 1955	Uncollected Taxes December 31, 1955
Levy of 1952	$ 57.03	$ 8.00	$ 49.03
Levy of 1951	114.96	8.00	106.96
Levy of 1950	91.85	6.00	85.85
Levy of 1949	107.20	2.00	105.20
Levy of 1948	50.00	8.00	42.00
Levy of 1947	30.00	2.00	28.00
Levy of 1946	16.00	-0-	16.00
	$467.04	$34.00	$433.04

It is therefore again recommended that these tax lists be carefully gone over by the Selectmen and Tax Collector and such taxes as appear to be uncollectable abated by the Selectmen.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, re-

quire that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Allenstown for their assistance during the course of the audit.

Yours very truly,

BE A GOOD CITIZEN - COOPERATE

Smoking and debris burning caused more than 50 percent of the forest fires occurring in the state of New Hampshire in 1955 - 235 fires out of a total of 463 originated from these two sources. Lighted smoking material and matches thrown from moving vehicles along the highway or dropped by fishermen, hunters, hikers, berry and flower pickers accounted for 26 percent; debris burning in the wrong place or at the wrong time by those who failed to heed all pleas for safety or refused to recognize the logical, sensible rules and regulations set up under legislative authority governing the use of fire in or near woodlands accounted for more than 24 percent. This is inexcusable.

Everything possible is being done officially to remedy the situation. Since 1909 there has been a statute on our law books which requires everyone to secure written permission from the local forest fire warden before starting a fire in or near woodlands or where fire can be communicated to woodlands, unless the ground is covered with snow. A never ending program of educational work is being carried on by your local warden and state officials to inform the general public both of the value and necessity of securing the required permit for such burning. Much progress has been made, but there are still many who fail or refuse to cooperate. The value of our permit system was definitely proven in this district during the 1955 calendar year. Local wardens issued 3864 permits for debris burning fires. That's a lot of permits. The records show only 2 permit fires got out of control. This proves several things - while wardens were liberal in the issuance of fire permits, accommodating every applicant so far as possible, they were cautious, following closely directives outlining overall policy governing the issuance of burning permits and thoroughly instructing permit users. The latter, too, fully appreciating their responsibility in using their permits, governed themselves accordingly. Result? Much burning done legally and safe.

But what of the smokers? Despite all the efforts of those officially charged with the responsibility of preventing fires, too many were careless or thoughtless in disposing of smoking material and matches. Why? It is difficult to say. Autos are now equipped with ash trays. Why not use them. The crushing out of a cigar, cigarette and the complete ex-

tinguishment of matches before being discarded is an easy chore.

If the costly habits of the careless and indifferent smoker and debris burner could be overcome, more than half of our annual forest fires would be eliminated. Will YOU do YOUR share to bring this about?

REMEMBER

1. Get a written permit from your local warden before starting your debris burning or camp fire. The law requires it.
2. Make certain they are dead out before leaving them.
3. Become a safe smoker by extinguishing smoking material and matches before discarding them.

BE A GOOD CITIZEN - COOPERATE

Number of local fires - 4.

Number of acres burned - 7/10 acres.

Number of permits issued - 29.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1956

To the School Board of Allenstown:

In submitting my ninth annual report of the Allenstown Public School, may I express my thanks and appreciation for your understanding and help in our attempt to make the educational system of the town worthy of the men, women, and children who have come under its influence.

It was necessary to replace the entire teaching staff in September because those who had been with us for two years moved to better jobs where salary conditions seemed to offer more security. However, it is the feeling that we were fortunate in finding a capable teaching personnel as replacements. Mrs. Yvonne Olson in Grades 1 and 2 and Mrs. Muriel MacLeod in Grades 3, 4, and 5 bring to us considerable experience for which we are already getting results. Mr. David R. Cawley, our principal, has done and is still doing an excellent piece of work and we feel that with his guidance and understanding the school is in good hands.

Mr. Edward Hamel was replaced by Mr. Esdras Lavalee as custodian of the building and Mrs. Judith Severance was appointed the lunch supervisor when Mrs. Hatfield decided to take another position.

The Budget for 1956-57 must be increased because of the nature of the items. For instance - Item 2, the local share of the superintendent's salary has been increased because of the law changing the method of distribution of Supervisory Union costs. This item is now based on one-half the last equalized valuation and one-half on the last average daily membership. Formerly this item was based on just the number of teachers. Therefore, this item was increased from $246 to $439.92 not because the superintendent received an increase in salary, but because of the nature of the distribution of the new law.

Another item which has been increased is Teachers' Salaries. This has been due, in great part, to the shortage of teachers which is the greatest in the history of America. We have been fortunate in holding good teachers, but both the State and the National basic salary for teachers are higher each year and will continue to rise until the supply meets the demand. Allenstown will have to meet the cost of this item

or remain content with mediocre and poor teachers for the children.

Books and supplies have been held at the same level in the hope that the school population will remain about constant although we have been notified that paper for these items took a 10% increase in February and that we can expect another by early summer.

Since we made a new contract for transportation for the current year, we can expect no change, but it will not be long before this item will be increased due to new families and more children.

The greatest increase has come in the tuition to the Academy. We have been informed that the rate will not be increased, but the number of children attending will be slightly more than fifty. At $300 per child, this amount of $15, 000 will not be any too much especially if more families move into town between now and September 1956.

Other items have been kept to a minimum and we hope that we have provided for all unforeseen emergencies such as breakage, repairs, and replacements.

The greater part of any budget today is fixed with very little chance of making any changes. The reason, of course, depends upon rising costs, increased enrollments, and related items including water, light, supplies, retirement, insurance, fuel, administration, the per capita tax, and health supervision.

We hope that the taxpayers will realize that modern education in a democracy requires constant checking and vigilance, but that with increases in the cost of living, other items will also increase accordingly. You might be interested to know that Allenstown has one of the lowest school tax rates per $1000 of equalized valuation in the State although its equalized valuation is considerably higher for its size and population. The Allenstown school tax is $7.44 per $1000 while the State average is $11.90 proving that for its ability to pay, it is below the average. This is one of the reasons why the town has never been eligible for State Aid.

It has been a pleasure as well as a privilege to have worked with you for the improvement and growth of the educational system of the town. Let the good work continue.

February

Murray H. Watson

REPORT OF DIRECTOR OF CIVIL DEFENSE

To the Selectmen of the Town of Allenstown:

Through the co-operation of the citizens who so generously subscribed to the fund, your director is happy to report that both our Fire Department and Police Department are now Radio equipped.

The Police Department has a transmitter and receiver assigned to the wave band of the N. H. State Police so in the event of an emergency causing an electric or telephone failure the town would still be able to contact any part of the state.

The Fire Department has a transmitter and receiver on each of its trucks and also a portable unit. These are on the same wave band as the equipment of the Pembroke and Hooksett Fire Departments which increases the value of this department in an emergency.

These radio transmitters and receivers are furnished by the U. S. Government through the Office of Civil Defense at half price. The total value of this equipment is $1988.99 which the town obtained for $994.50, the greater part of which was obtained by popular subscription.

We wish to thank Capt. Basil Cutting of the N. H. State Police for his valuable assistance in securing and installing this equipment.

Respectfully submitted,

John F. Lynch

Director of Civil Defense
